EXPERIENCE

2020 - 2022

Projects

I have done practical training and done many projects

2021 - Now

Freelance Work

I have received some projects and have completed them in excellent condition.

2022 - Now

Working With A Software Team

I gained a lot of experience in front-end and working with a team, and I also gained some experience in solving problems.

About me

I'm Ammar Chalati And I am a Front End Developer
I am 20 years old, I live in Lattakia, I am a student of information technology engineering at Tishreen University and I also learned Front-end in the last two years so I am trying to develop myself in every way with it in order to become a professional.

Education

2019 - 2020

Studying In The Third Year Of Secondary

I got my third year secondary school certificate with an average of 93.75%.

2020 - 2022

Front-End Development

I Started learning frontend development through Youtube and many education platforms.

2020 - 2025

Faculty Of Informatics Engineering.

I started studying at the Faculty of Informatics Engineering at Tishreen University.

Services

Clean Code

I am doing the project with the lowest lines and the fastest implementation.

Interfaces Users

I am developing beautiful user interfaces that are consistent and compatible with all screens

Problem Solving

I am very good to solve the code problems.

Web Design

I design beautiful and harmonious user interfaces
